

Should I cut the cable cord?

ASK YOURSELF...

1. What do I actually watch on television?
2. What are my TV watching habits?
3. Would I be happy with current streaming options?
4. How much do I pay for television and Internet?
5. How much would I save per month?

HELPFUL RESOURCES

The Verge's Cord-Cutting Calculator - <http://bit.ly/1O6TYgt>

Calculate what it would cost to get the content you want without a cable subscription. Select streaming services to see what television channels are covered. Then see what your monthly cost would be.

JustWatch - <http://www.justwatch.com>

Search any movie or television show to find out if the title is available to stream from a streaming content provider. Also see what's new and popular in each streaming service.

TIME's Suggested Streaming Packages - <http://ti.me/1licRXm>

Organizes streaming services into 6 different hypothetical "packages." Decide if you could get a satisfying streaming content package based upon your television tastes. Includes estimates of how much the typical television viewer would save by cutting the cable.
